AN inventory of facilities and the following proposal for improvements at City Park No. 2 was presented; this had been received by the city manager on March 23, 1961:

Yoakum, Texas
March 1961

After making the above inventory, we the members of the Recreation and Development Committee find it necessary to make the following proposals:

1. Swimming Pool (Adequate Size)
2. Purchase of Additional Land
3. Two Tennis Courts
4. One Volley Ball Court
5. One Soft Ball Diamond (Adequate Lights)
6. Purchase of Recreational Equipment and Repair of Present Equipment.
It is very urgent and essential that we be provided with a Swimming Pool as soon as humanly possible. The installation of a swimming pool will necessitate the employing of a Recreational Director to supervise a Recreational Program, consequently enabling our children to participate in a planned Recreational Program. Then, and only then, does it seem that we will be in a position to provide our children with wholesome recreation, and finally get them off the streets.

This committee, and the concerned citizens and parents, who are interested in their children participating in a wholesome Recreational Program, should like for the Board of Commissioners to meet with the members of this committee, within Thirty days after the receipt of the above proposals, in order that we might be informed of your plans for compliance with the proposals.

Failure to begin planning immediately, and with deliberate speed to comply with the above proposals, will only force this committee, interested citizens and parents to file for admission to the only swimming pool available to all citizens of Yoakum.

We the electricians and contractors of Yoakum, Texas recommend that the following changes be made in the present electrical ordinance along with those already proposed:

1. Eliminate the present electrical inspector because of gross incompetence.

2. Keep several meter bases of assorted sized in the City Hall so that electricians do not have to wait and hold up their jobs.

3. Same as item 6 in our proposal of December 15, 1960. Eliminate grounded outlets except on exterior outlets or outlets within five feet of water lines or plumbing fixtures.

4. Permit cold water pipes to be used for grounding outlets. See paragraph 7006 of the Electrical Ordinance dated November 9, 1959.

5. Neon and other electrical signs should be required to take out permits and have electrical inspections.

6. The Electrical Examining Board to be composed of the following:
   1. A member of the City Board of Commissioners

THE following was presented in support of Item No. 1 above:

TO: The City Commissioner, Yoakum

This statement is submitted in support of the request of the Yoakum contractors, both electrical and building, for the removal from office of Mr. Ellis Thorneill as electrical inspector. We agree on him being grossly incompetent for this office.

The following is a list of instances upon which we base our decision:

1. Inconsistency in code and ordinance interpretation.

2. Intervening between contractor and customer as to the necessity of materials and prices charged.

3. Inconveniencing the electrical contractor and builders.

4. Interrupting helpers while there are on duty.
5. Using foul language in private home.

6. Being over suggestive or trying to demand action.

7. Trying to prevent the issuance of a permit without sufficient reason.

8. Setting a deadline on a permit.

9. Bawling out a contractor and calling him dirty, indecent names.

10. Lack of common sense while or when applying and enforcing the rules.

This report is not necessarily the complaints of all the contractors and this not necessarily all the complaints of any one contractors.

THE representatives were informed that items 2, 3, 4 and 5 of the above proposal would be changed to meet the approval of the electricians and contractors but that further study would be required on the other items. They were also informed that all changes in the ordinance would be made at one time to eliminate the necessity of changing and amending the ordinance a number of times.

Mr. J. E. Cross then presented a letter from E. W. Pietsch in regards to improvements to be made for Yoakum Packing Company. Several questions were asked and the commissioners instructed the city attorney to prepare the answer in reply to Mr. Pietsch's requests.

Copies of managers reports were presented to the commissioners.

THERE being no further business the meeting adjourned.

THE purpose of the meeting was to consider action to be taken in
gards to developments taking place at the city parks.

THERE had been received a request that the sale of beer be prohibited
at City Park No. 2.

THE commissioners referred this matter to the Colored Chamber of
Commerce who is sponsoring a celebration at Park No. 2 on July 4. This
action was taken because certain contracts have been entered into for
this celebration.

A group of colored people had attempted to purchase tickets to the
swimming pool. They had been turned down by Recreation Director Sutton
on the grounds that the pool was not open at that time to the public but
was being used to give instructions in swimming to private classes. At
a meeting with the city manager and city attorney they were informed that
they would not be granted permission to use the pool pending a meeting of
the Board of City Commissioners.

THE commissioners instructed the city manager to continue to refuse
use of the pool by colored citizens and that further action would be
delayed pending action by the colored citizens.

THESE being no further business the meeting adjourned.

MOTION by Commissioner Borchers, seconded by Commissioner Lowrance, that the bills as corrected by deducting $166.20 from the bill of Chas. Merian Insurance Agency be paid and that petty cash funds be replenished. MOTION carried.

MOTION by Commissioner Love, seconded by Commissioner Borchers, that the insurance on the golf club house not be renewed when the present policy expires. MOTION carried.

REPRESENTATIVES of the Southwestern Bell Telephone Company met with the commissioners to request that a base rate area be established for Yoakum. The following ordinance was introduced and read:

AN ORDINANCE ESTABLISHING A BASE RATE AREA FOR TELEPHONE SERVICE IN THE CITY OF YOAKUM.

MOTION by Commissioner Love, seconded by Commissioner Witte, that the ordinance pass first reading. MOTION carried.

REPRESENTATIVES of the Southwestern Bell Telephone Company also discussed the installation of walk-up and drive-up telephone service for Yoakum. They explained that these telephones would be installed on city property in areas where telephones may be needed and the persons living in that area are not able to install private telephone service. The city would receive revenue in the amount of 10% on local service and 15% on long distance service. The city to furnish necessary electric service and to install such electric service to the telephones.

MOTION by Commissioner Love, seconded by Commissioner Witte, that this type of telephone service be authorized as outlined above and that the City Manager and Telephone Company representatives work out the locations for such service. MOTION carried.
REPRESENTATIVES of the Yoakum Flying Club met with the commissioners to check on progress made toward erecting of hanger space at the airport. The commissioners informed the representatives that nothing had been done along these lines because of the temporary set up at the airport. It is the feeling of the commissioners that a permanent location for an airport should be secured prior to expenditures of the amount needed for construction of hanger space. The representatives of the flying club were requested to see if another site may be found for the airport. The flying club requested permission to construct a temporary structure for the protection of their airplane.

MOTION by Commissioner Borchers, seconded by Commissioner Witte, that the Yoakum Flying Club be authorized to construct a temporary structure at the airport for the protection of their plane. MOTION carried.
